Labeled cross-section of the human heart

Print at actual size. The bar at the bottom must measure 100 mm.

100 mm

rv: right ventricle

sv: superior vena cava

rpa: right pulmonary arteries

rpv: right pulmonary veins

ra: right atrium

iv: inferior vena cava

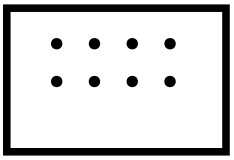

aa: aortic arch

lpa: left pulmonary arteries

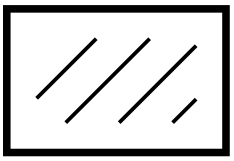

lpv: left pulmonary veins

la: left atrium

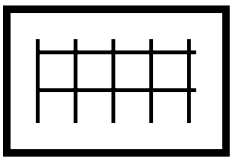

lv: left ventricle

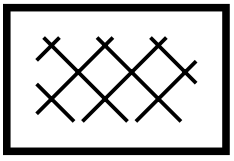

dots: right pulmonary veins, aortic arch and left atrium

lines: right ventricle

grid: superior vena cava, right pulmonary arteries, inferior vena cava and left pulmonary arteries

cross: left ventricle

solid: right atrium

Not raised: tricuspid valve, a line between right atrium and right ventricle

Not raised: chordae tendineae, a line in right ventricle

Not raised: semilunar valves, a line between left ventricle and aortic arch

Not raised: mitral valve, a line between left atrium and left ventricle
